## **SUPERVISOR HANSBERGER APPOINTS TANYA PERRY TO THE MENTAL HEALTH COMMISSION**

Supervisor Hansberger has appointed Big Bear resident, Tanya Perry to complete an unexpired term on the county's Mental Health Commission.

Ms. Perry received her Masters of Art in Art Therapy in 1985 and is a Registered Art Therapist. She has an extensive background in the field of medicine as a clinical practitioner and mental health professional. In addition, Ms. Perry is involved with the Bear Valley Network, Children's Network, and the Bear Valley Healthy Start Collaborative, just to name a few.

"Tanya's experience in the mental health field will have a positive impact on the Mental Health Commission and the Third District," said Hansberger. "Someone with this kind of knowledge and experience is bound to make good things happen and I am confident in her abilities to bring an awareness to the increased need for social services."

Ms. Perry is currently the Healthy Start Coordinator at Bear Valley Unified School District and hopes to further the mental health services in the underserved areas of the Third District, particularly in Big Bear Valley.
